

Top Drawer

Assembly Instructions

**** This product is intended to be assembled using wood glue to ensure its durability and longevity. ****

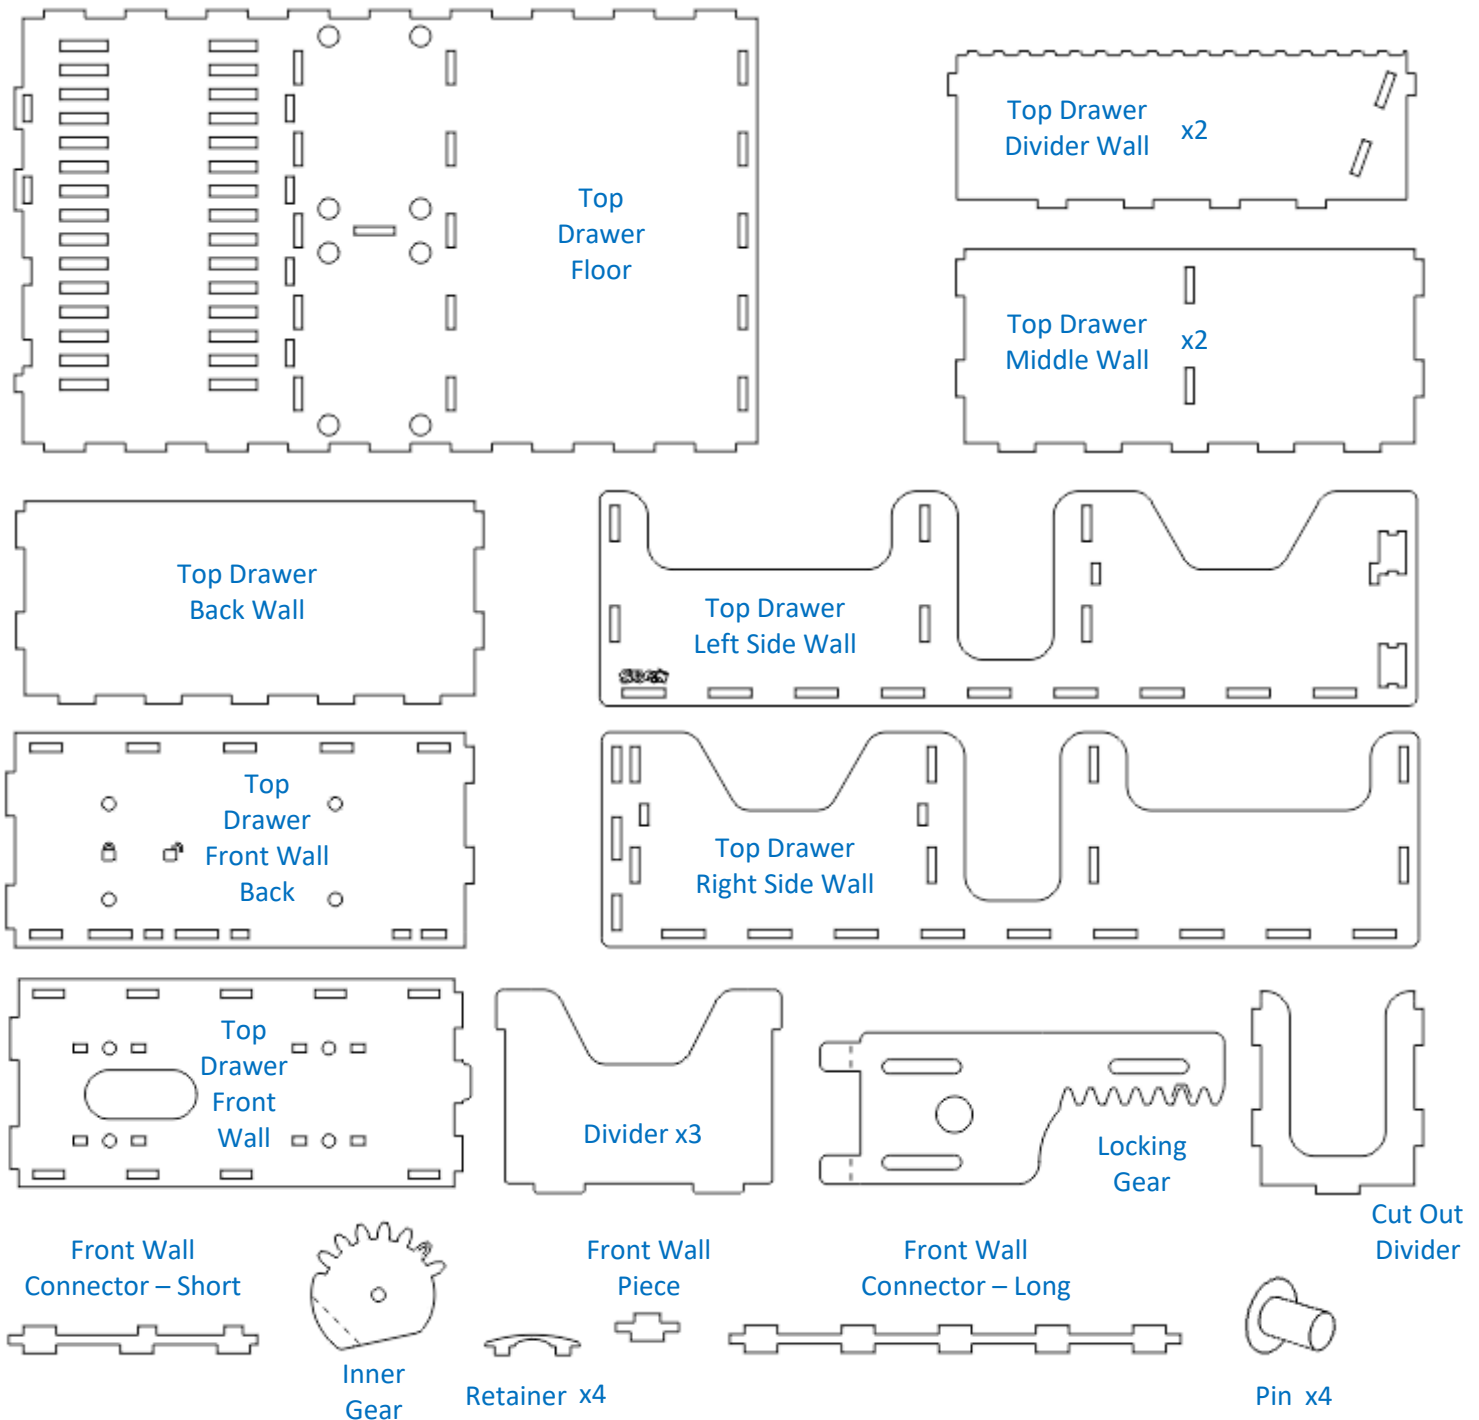

Step 1:

Separate pieces into their respective piles.

Token Holder:

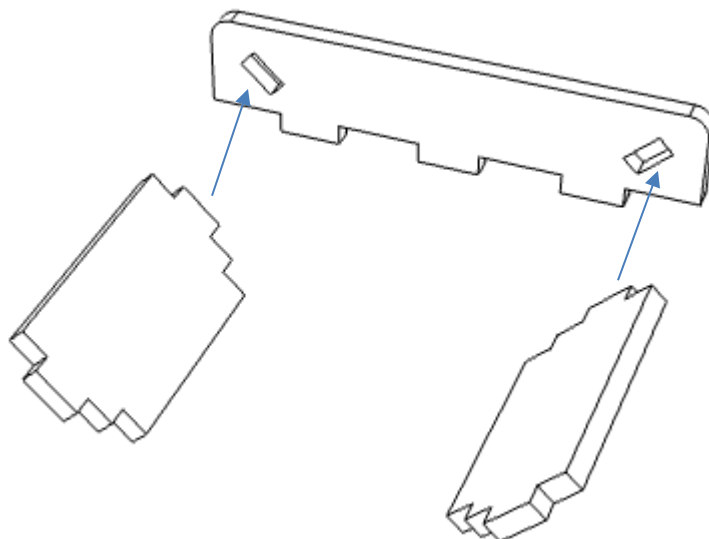

Top Drawer:

Blue arrows indicate connection points and red arrows highlight correct facing/direction of pieces

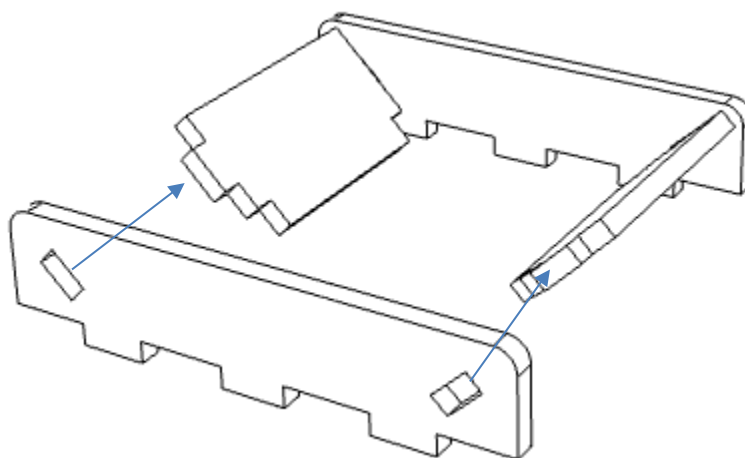

Step 2 (Token Holder):

Attach the Token Ramp pieces to a Token Side Wall piece, making note they are facing the correct way as shown. Note the Token Holder pieces will only fit on one side.

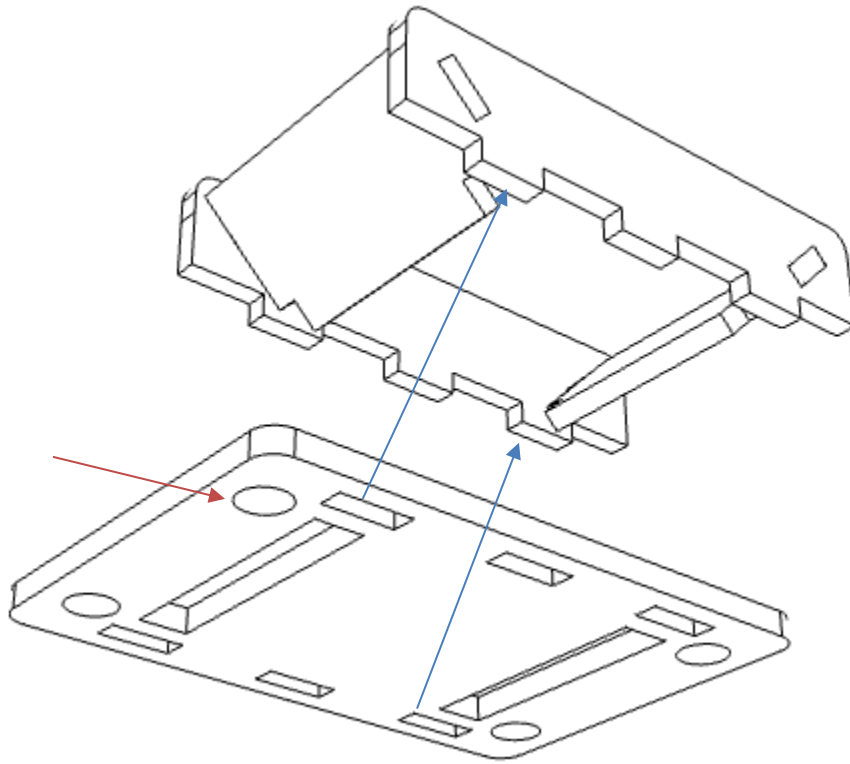

Step 3 (Token Holder):

Attach another Token Side Wall piece to the other side, making note they are facing the correct way as shown. Note the Token Divider pieces will only fit on one side.

Step 4 (Token Holder):

Attach the Token Side Walls, and slide the Token Ramps, into the Token Floor piece, making note it is facing the correct way as shown. The provided rubber feet can be applied where the circles are drawn on the bottom of the Floor piece.

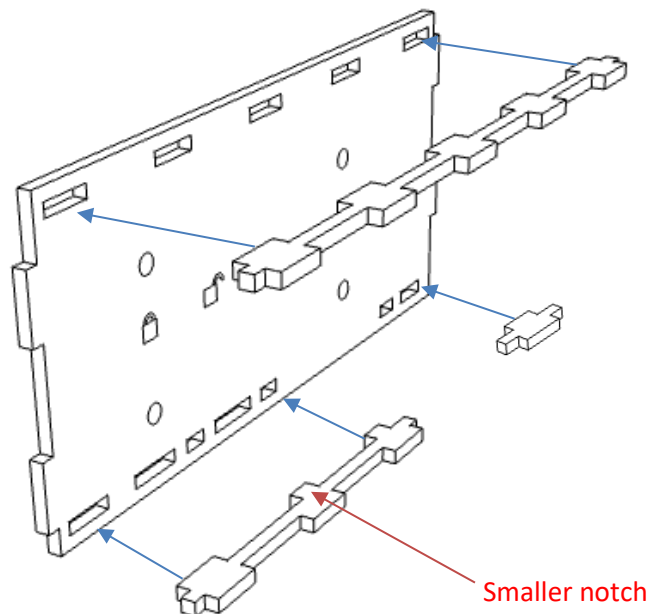

Token Holder is now complete. Repeat process 7 more times.

Top Drawer Instructions

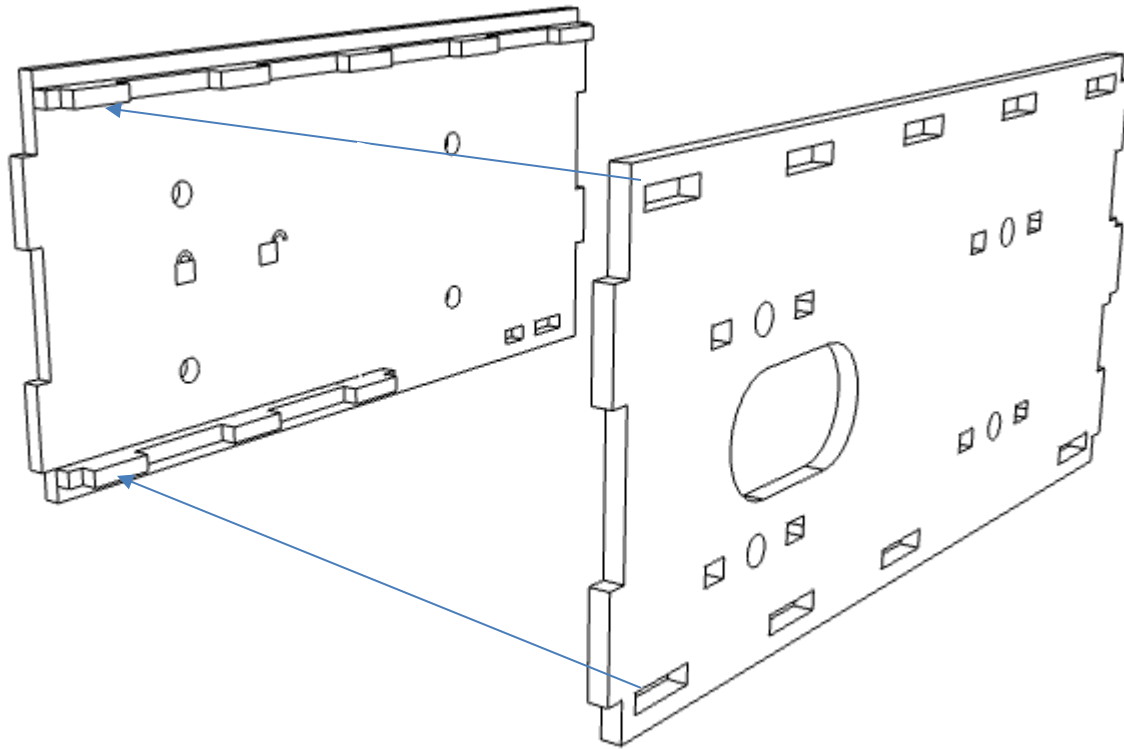

Step 5 (Top Drawer):

Attach the Front Wall connectors (and Front Wall piece) to the Front Wall Back piece (with the images of the lock), making note it is facing the correct way as shown.

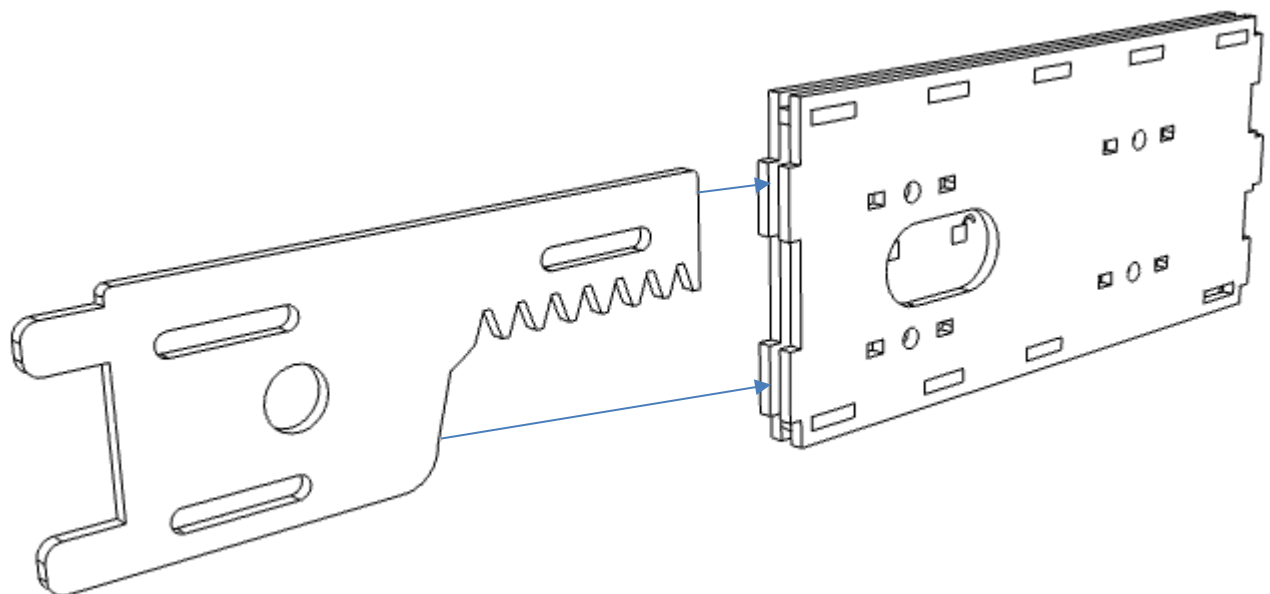

Step 6 (Top Drawer):

Attach the Top Drawer Front Wall and Front Wall Back pieces together as shown, making note it is facing the correct way.

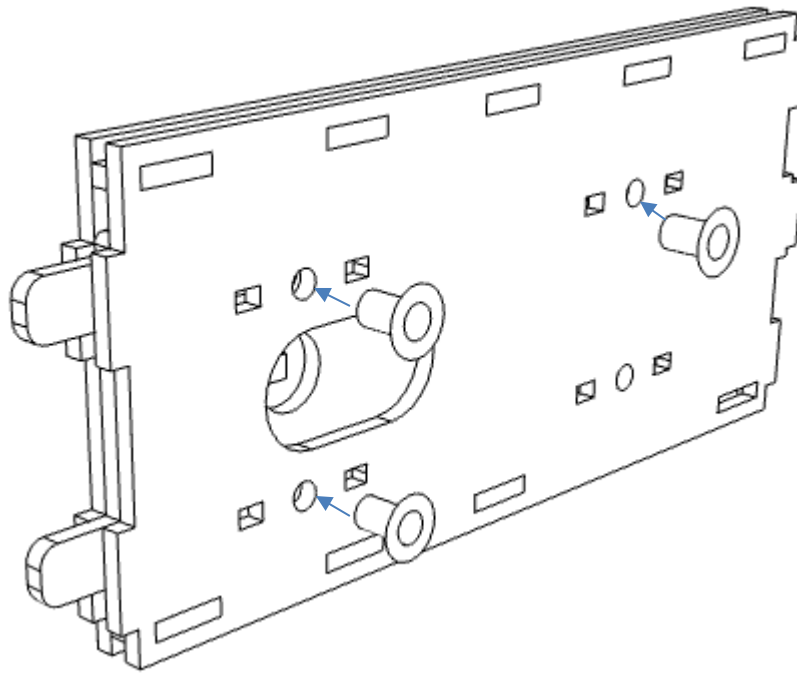

Step 7 (Top Drawer):

Slide the locking gear in between the two front wall pieces as shown. Make sure the three notches from the locking gear match up with the pin holes (top left, top right, and bottom left) on the front wall piece.

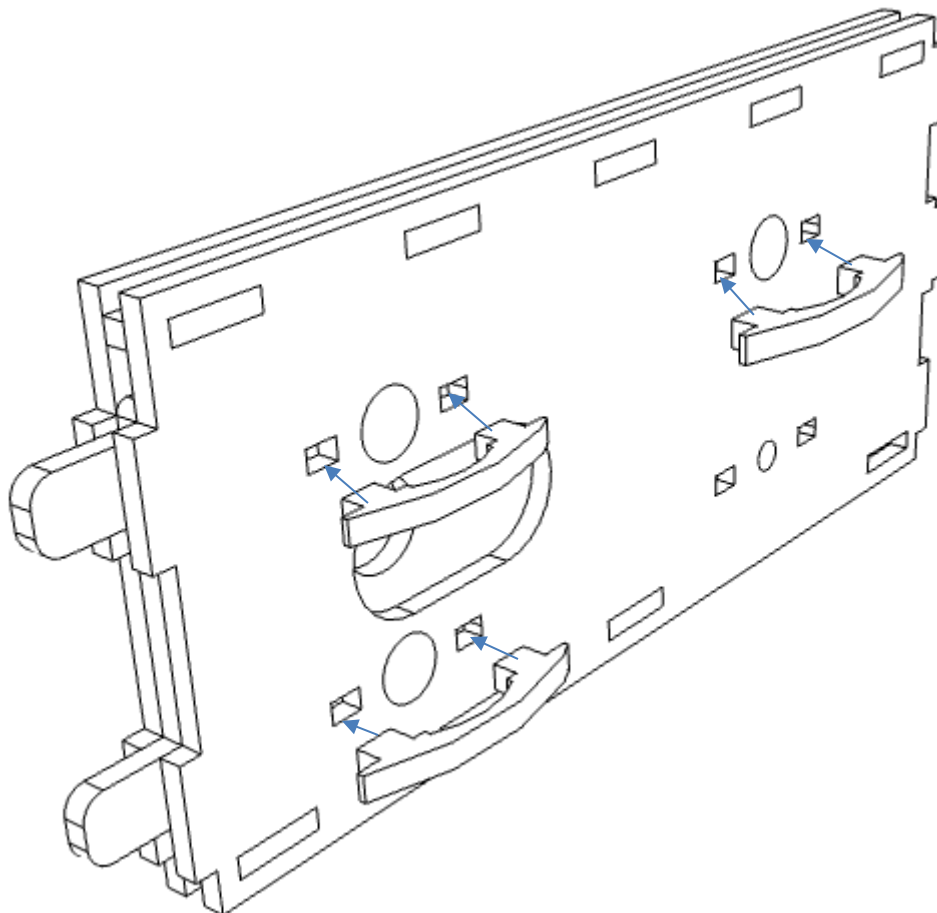

Step 8 (Top Drawer):

Once the locking gear and front wall piece line up, insert three of the pins into the top left, top right and bottom left pin holes. If the pins are not flush against the front wall piece, you may need to wiggle them in or it might not be lined up.

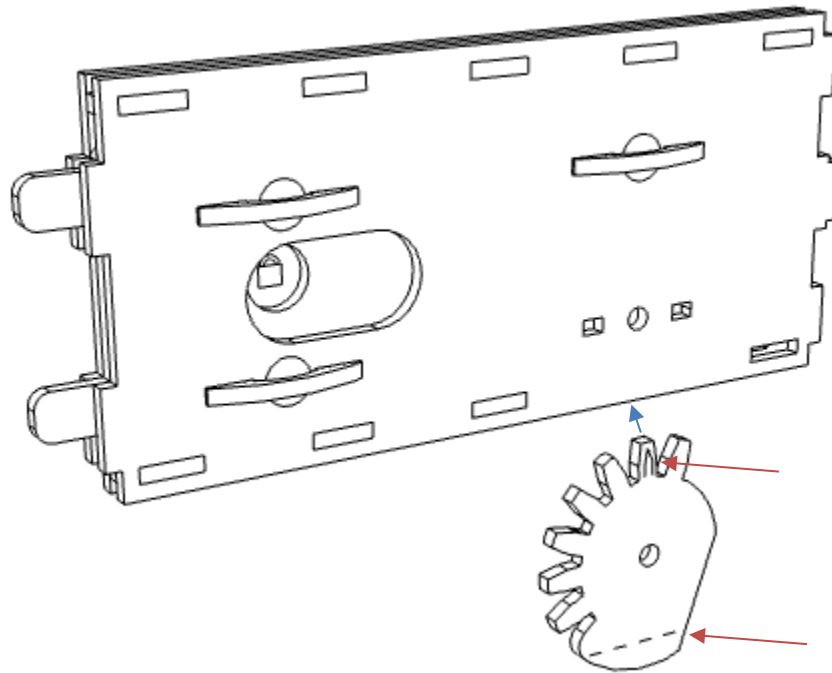

Step 9 (Top Drawer):

Attach 3 of the Retainers to the Front Wall, covering the pins, and making note they are facing the correct way as shown.

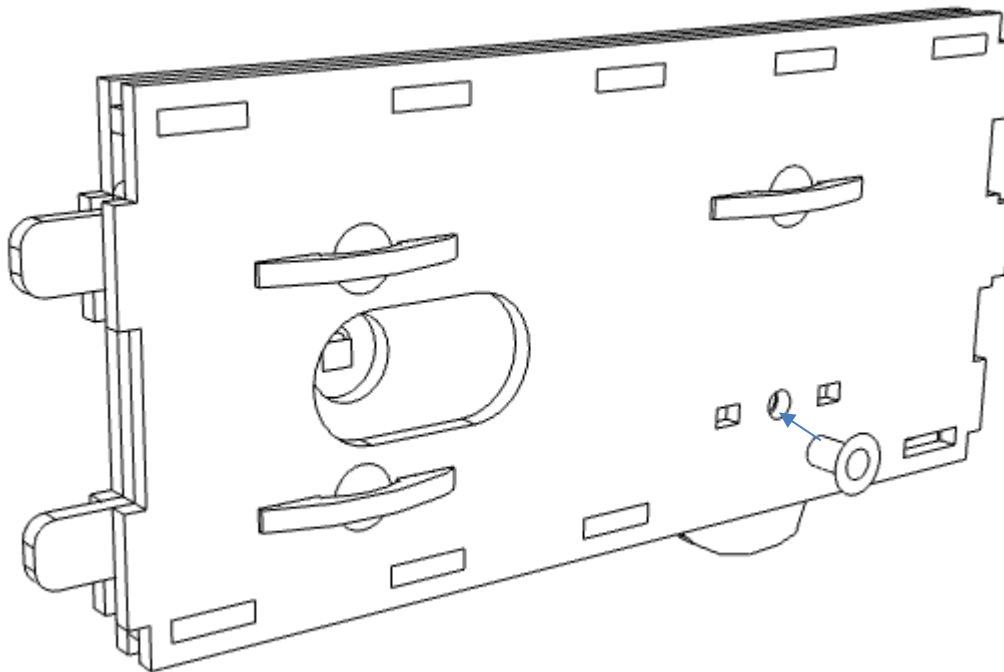

Step 10 (Top Drawer):

Align locking gear to the left so that it is fully out as shown. This will allow you to line up the inner gear in between the Front Wall pieces. Keep the etched line on the inner gear perpendicular to the Front Wall while sliding it in, until the pin hole on the inner gear matches the pin hole on the Front Wall as shown.

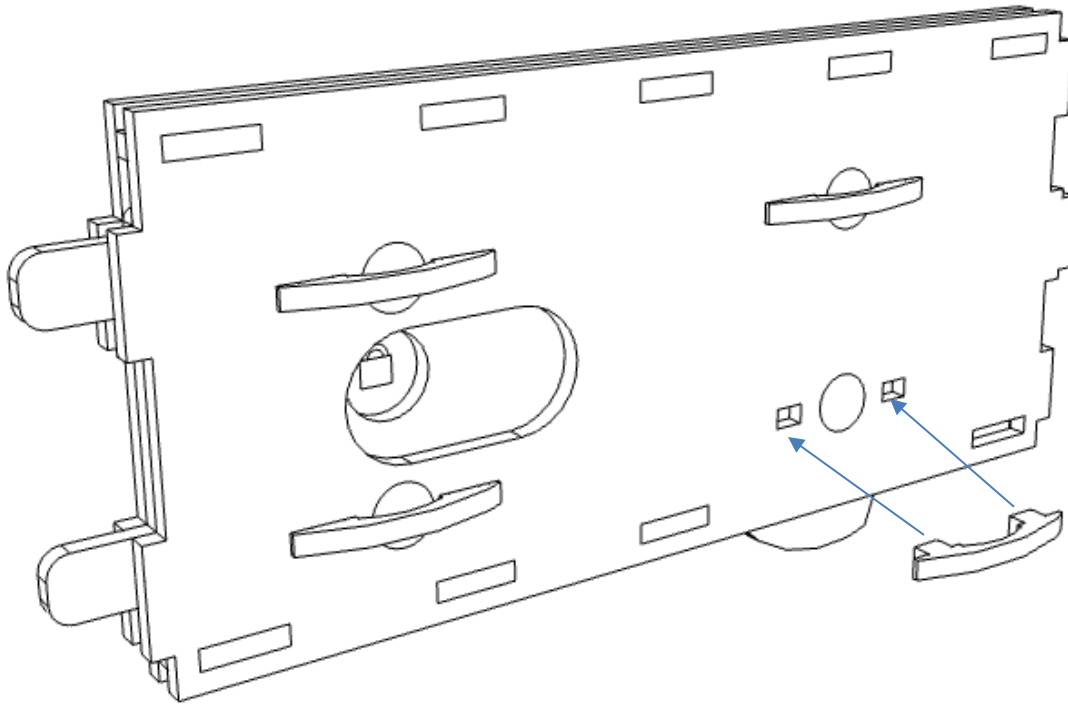

Step 11 (Top Drawer):

Once you can see clearly through the pin hole, attach the last pin into the pin hole on the Front Wall.

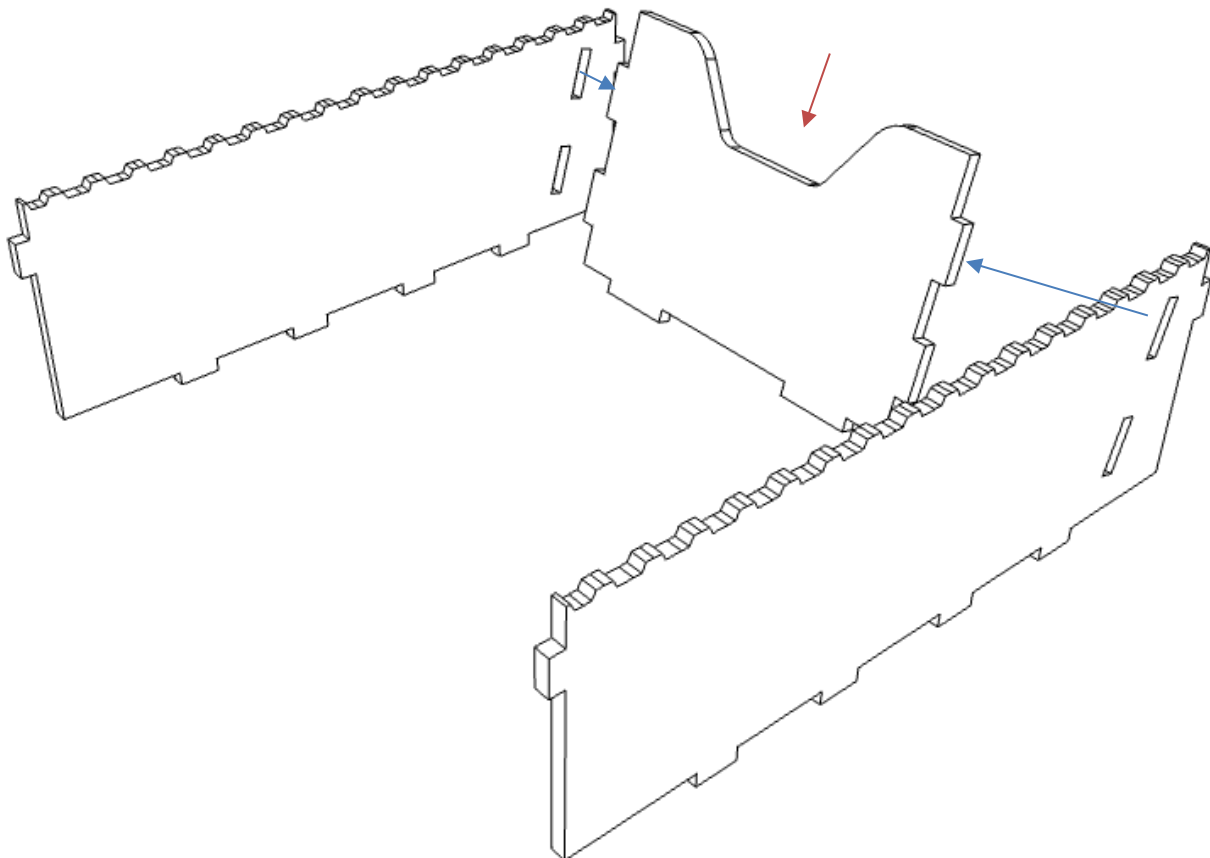

Step 12 (Top Drawer):

Insert the last Retainer piece in the Top Drawer Front Wall piece, making note it is facing the correct way as shown.

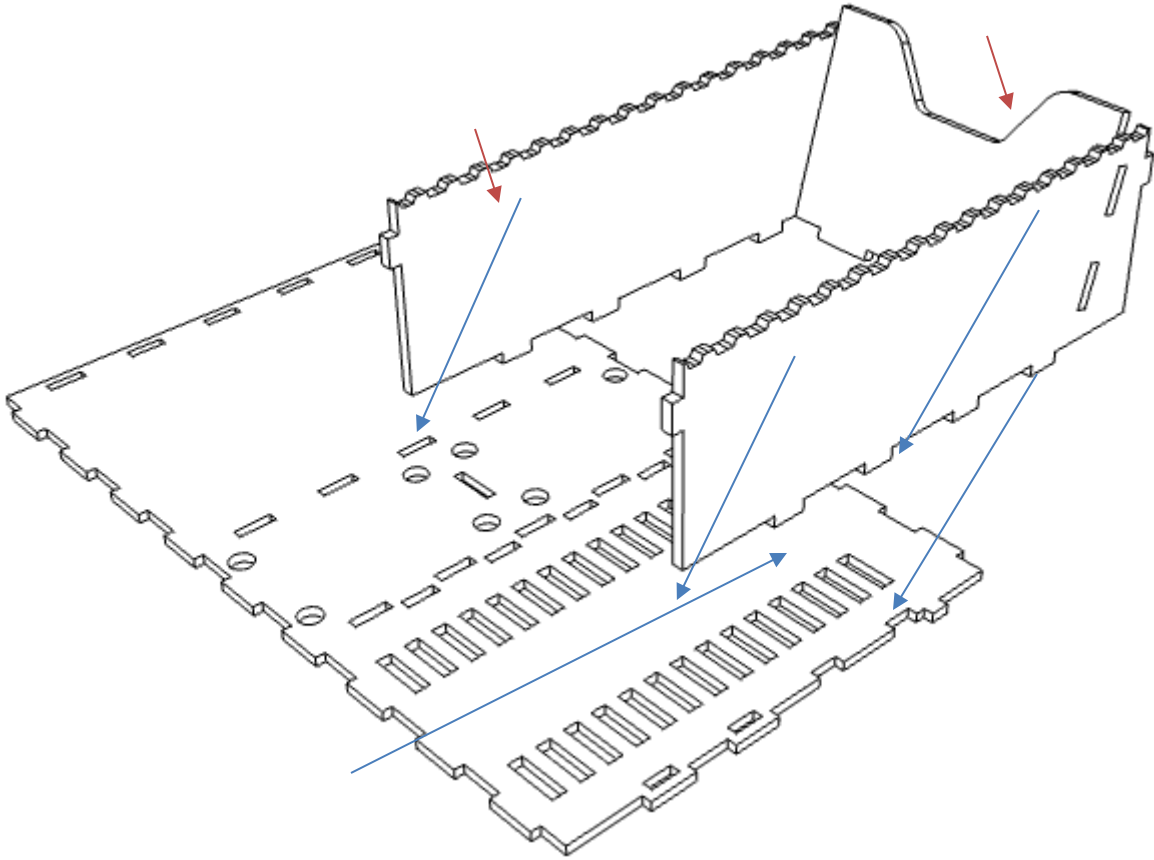

Step 13 (Top Drawer):

Attach one of the dividers to the two Top Drawer Divider Wall pieces, making note it is facing the correct way as shown.

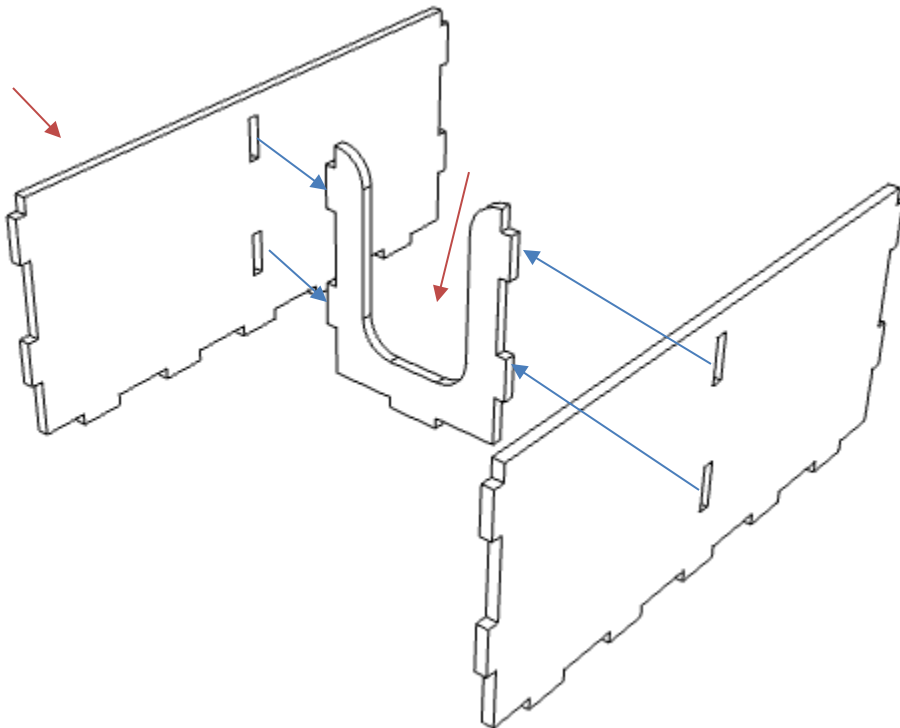

Step 14 (Top Drawer):

Insert the Divider Wall pieces (with Divider piece) to the Top Drawer Floor piece, making note it is facing the correct way as shown.

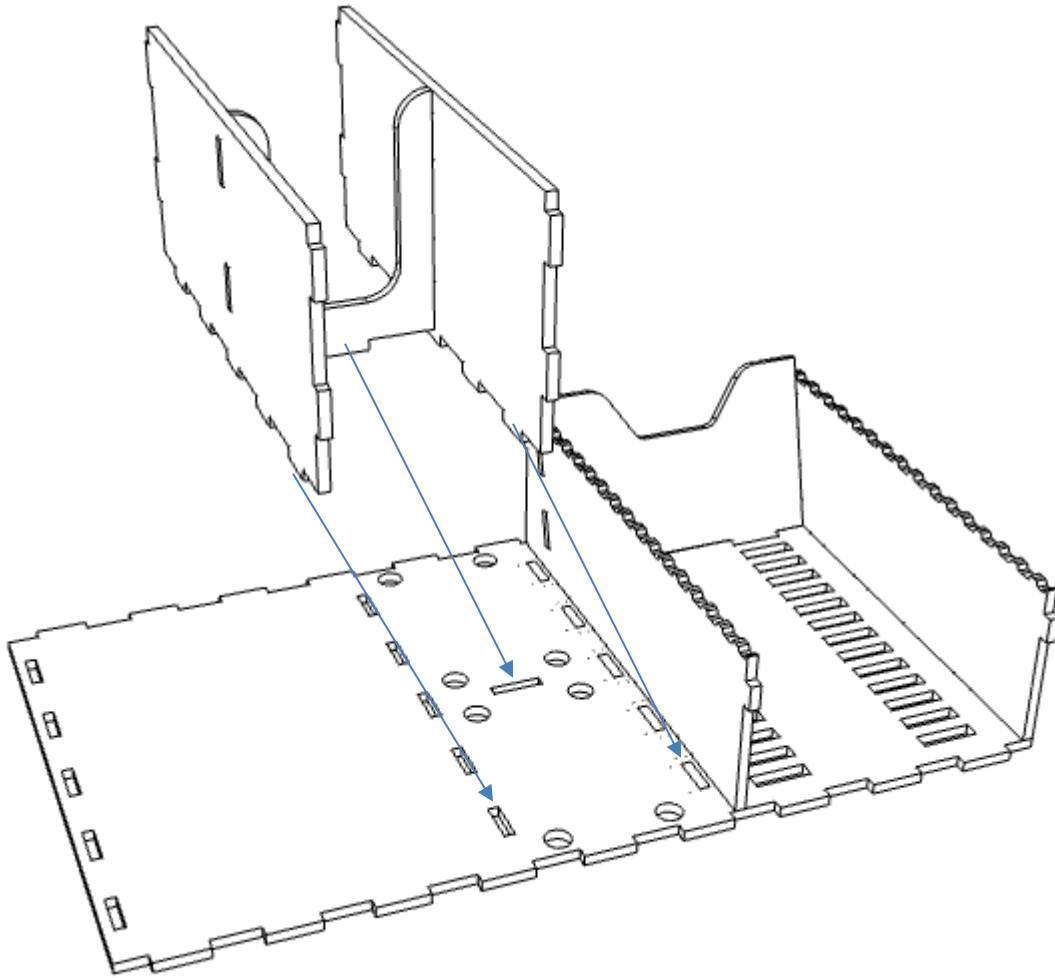

Step 15 (Top Drawer):

Attach the Cut Out Divider to the two Top Drawer Middle Wall pieces, making note it is facing the correct way as shown.

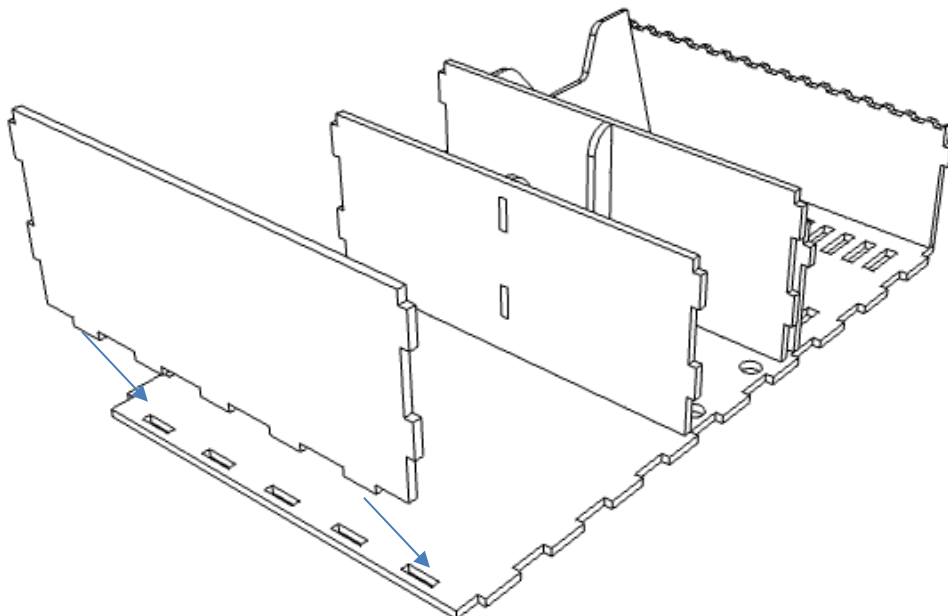

Step 16 (Top Drawer):

Attach the Middle Wall pieces (with Cut Out Divider) to the Floor, making note it is facing the correct way as shown.

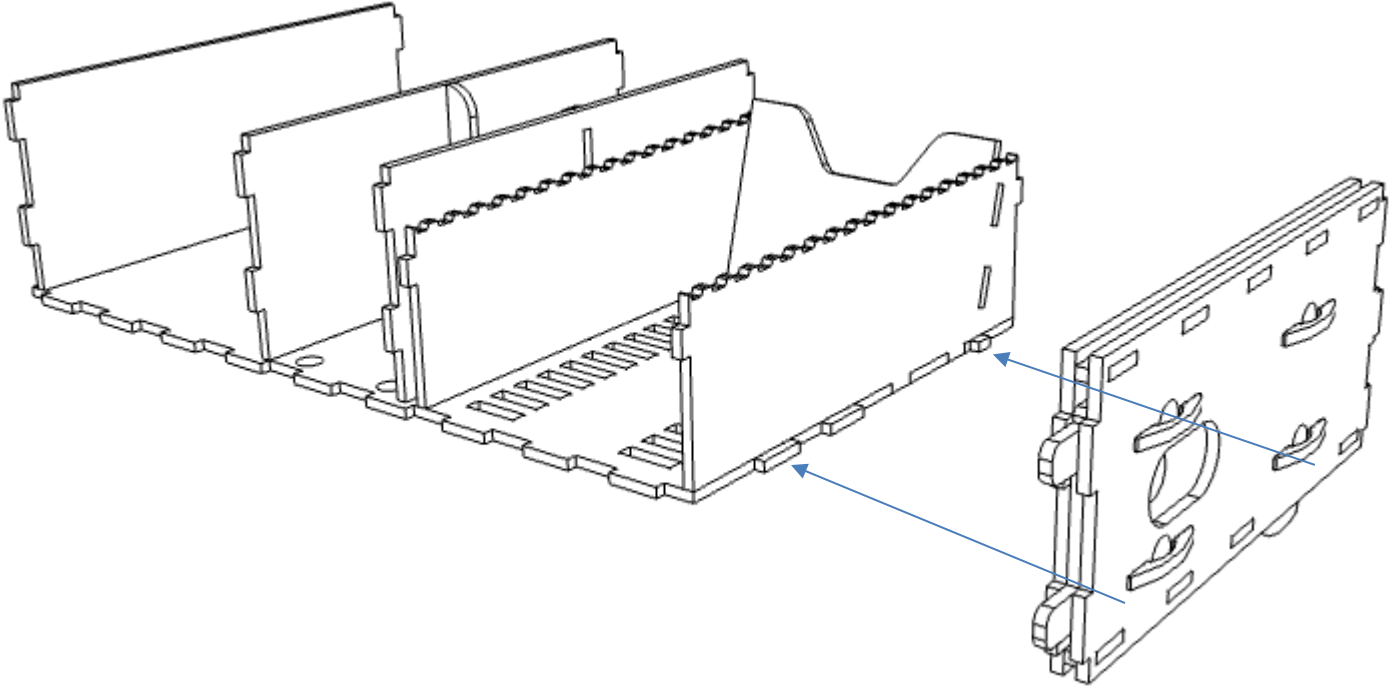

Step 17 (Top Drawer):

Attach the Top Drawer Back Wall piece to the Floor piece, making note it is facing the correct way as shown.

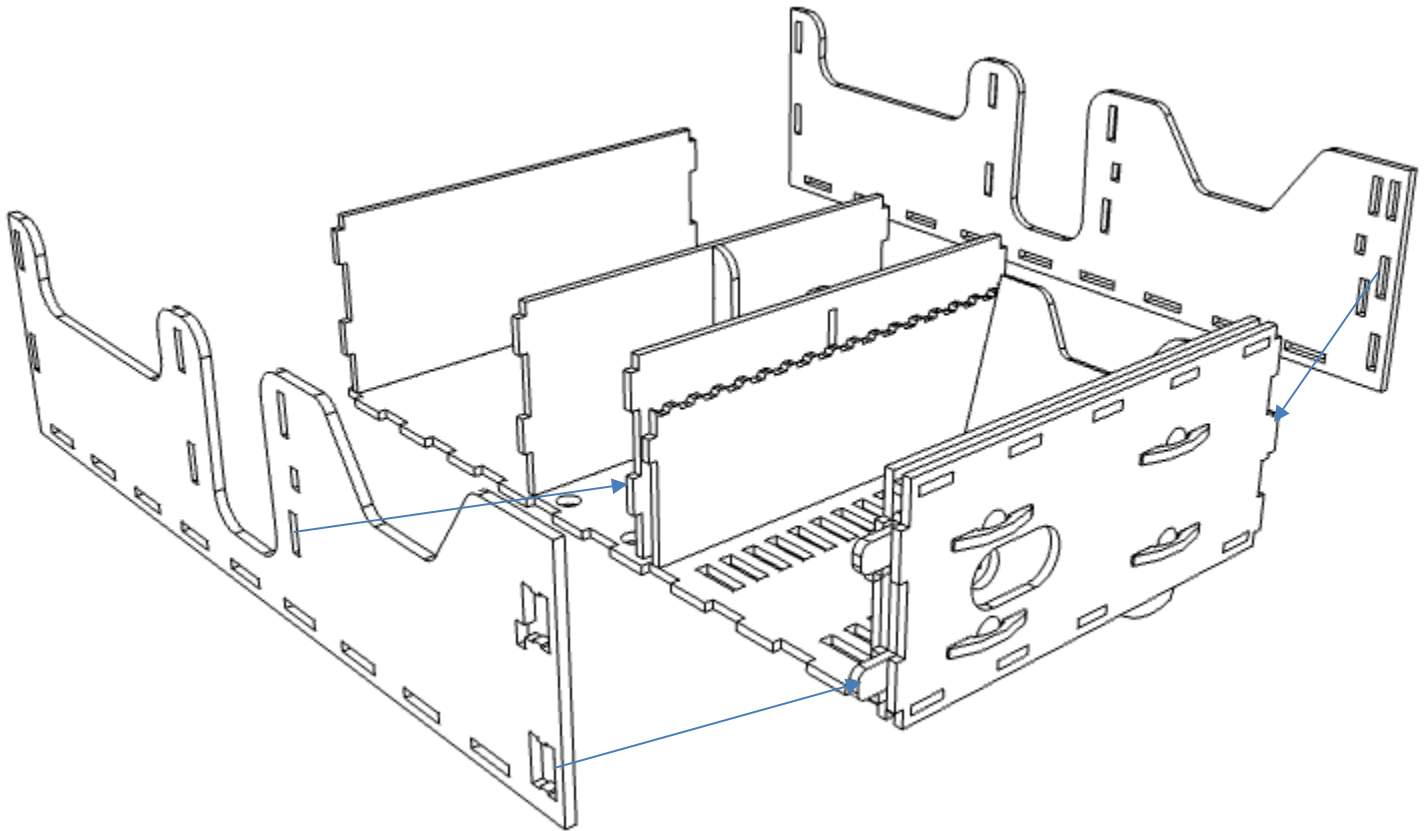

Step 18 (Top Drawer):

Attach the assembled Front Wall piece to the Floor piece, making note it is facing the correct way as shown.

Step 19 (Top Drawer):

Attach the two Top Drawer Side Wall pieces to the Floor piece, making note it is facing the correct way as shown. The Right Side Wall has the smaller notches when looking at the Top Drawer from the front.

Top Drawer is now complete.
