

Short Dice Tower

Assembly Instructions

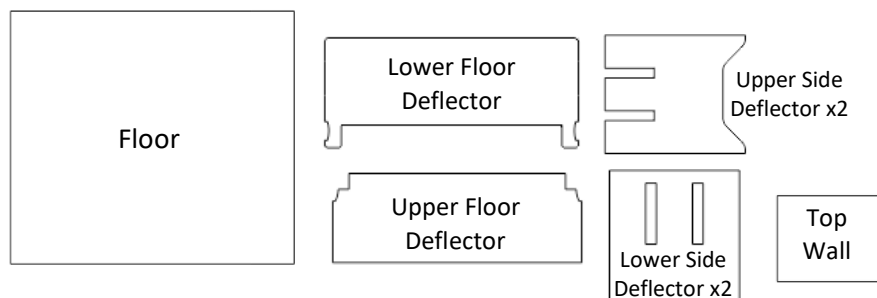

**** This product is intended to be assembled using wood glue to ensure its durability and longevity. Wood glue is only need when connecting the wood pieces, it is not needed to apply the velvet or when add in the acrylic front.****

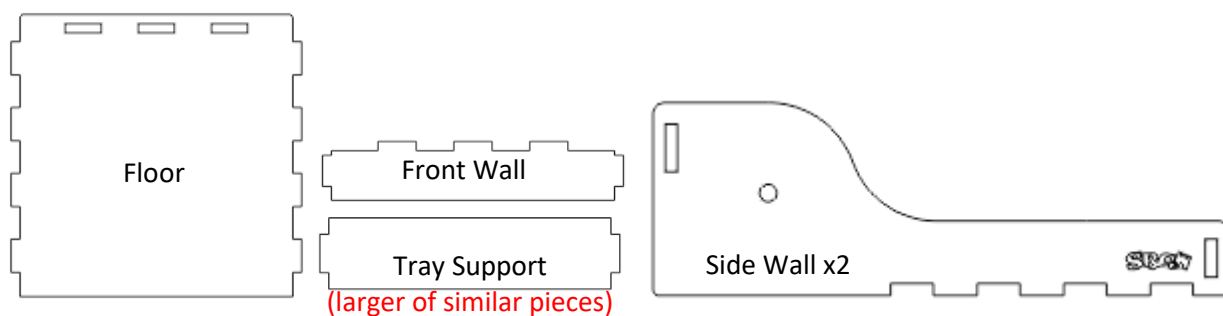

Step 1:

Separate pieces into their respective piles.

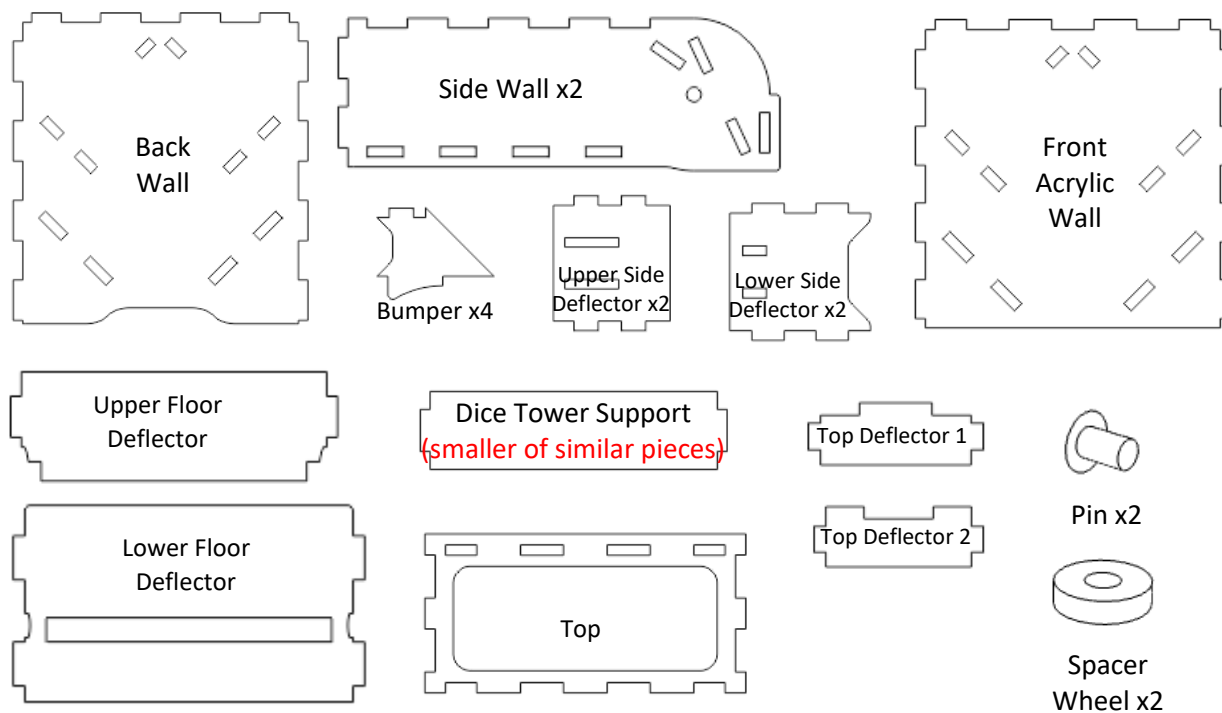

Velvet:

Tray:

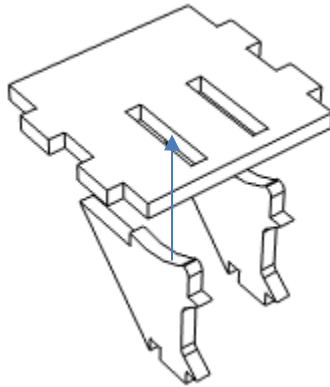

Dice Tower (w/ Acrylic Front):

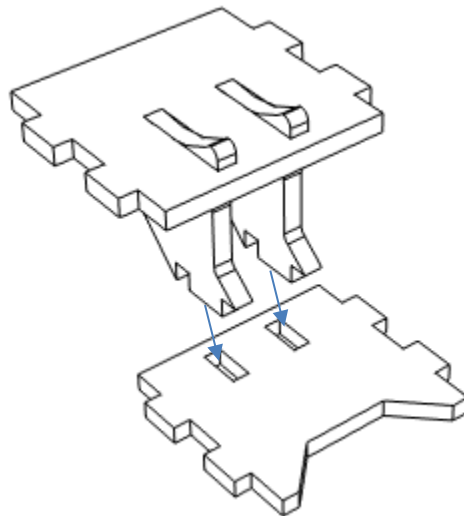

Step 2 (Dice Tower pieces):

Attach two of the Bumper pieces to one of the Upper Side Deflector pieces, making note it is facing the correct way as shown. The top of the Bumper pieces should be sticking up through the Upper Side Deflector piece (see Step 3).

Step 3 (Dice Tower pieces):

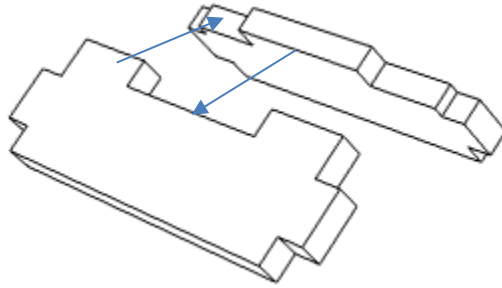

Attach the Bumper pieces to one of the Lower Side Deflector pieces, making note it is facing the correct way as shown.

****Repeat Steps 2 and 3 again with the remaining Bumper, Upper Side Deflector and Lower Side Deflector pieces****

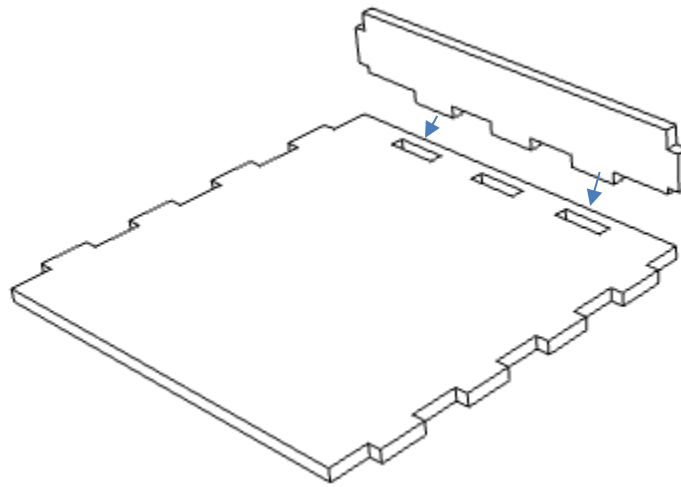

Step 4 (Dice Tower pieces):

Attach the Top Deflector 1 piece to the Top Deflector 2 piece as shown.

Step 5 (Tray pieces):

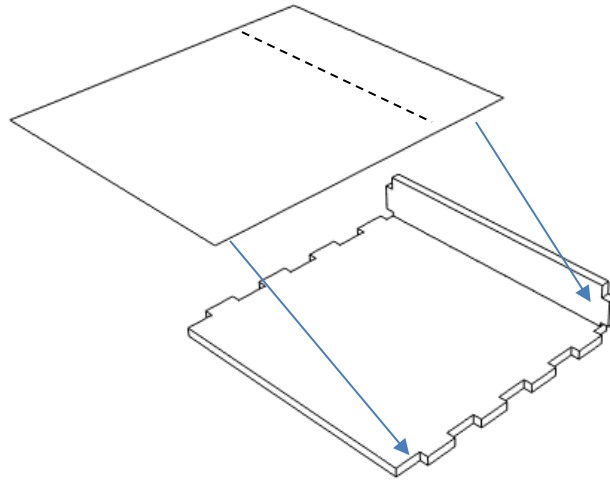

Attach the Floor piece to the Front Wall piece as shown.

Note for applying Velvet for Steps 6-10 – Once you peel off the brown layer that covers the adhesive side ensure you place directly onto the wood and not back onto the brown layer to apply later, the velvet will form a strong hold with the material it is applied to. Refer to assembly video for more tips on applying the velvet if needed.

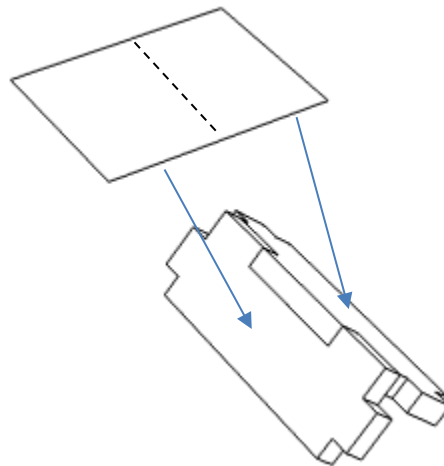

Step 6 (Velvet & Tray pieces):

Attach the Velvet Floor piece to the Tray Floor and Front Wall pieces as shown. Peel off the brown layer that covers the adhesives side of the velvet. Fold up the end of the Velvet Floor piece where the dotted line is shown when placing on Front Wall piece.

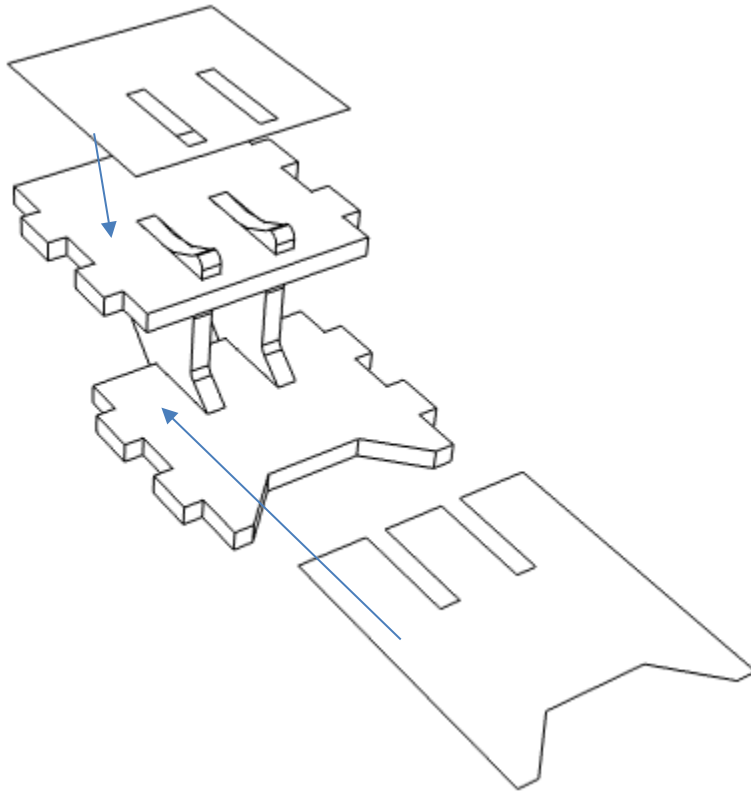

Step 7 (Velvet & Dice Tower pieces):

Attach the Velvet Top piece over the Top Deflector pieces as shown. Fold the Velvet Top piece in the middle when placing on the Top Deflector pieces.

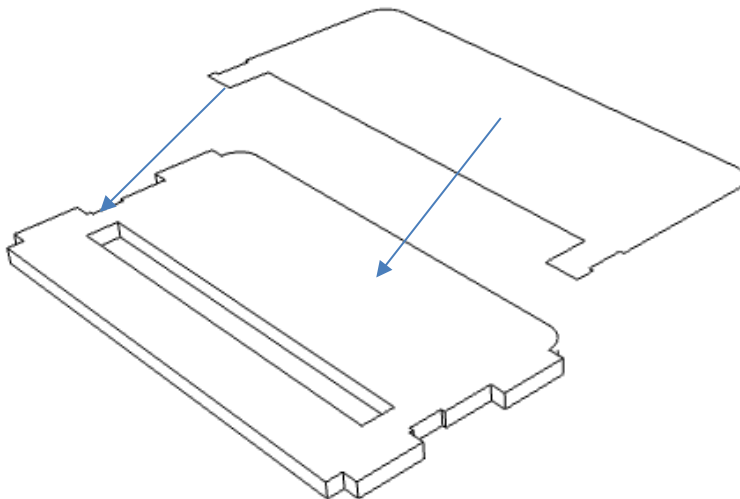

Step 8 (Velvet & Dice Tower pieces):

Attach the Velvet Upper Side Deflector piece to the Dice Tower Upper Side Deflector piece as shown. Also slide in and attach the Velvet Lower Side Deflector piece to the Dice Tower Lower Side Deflector piece as shown.

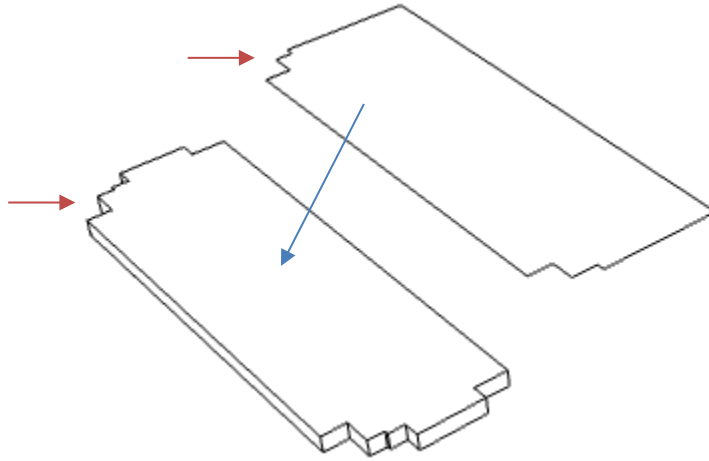

Step 9 (Velvet & Dice Tower pieces):

Attach the Velvet Lower Floor Deflector piece to the Dice Tower Lower Floor Deflector piece, making note it is facing the correct way as shown.

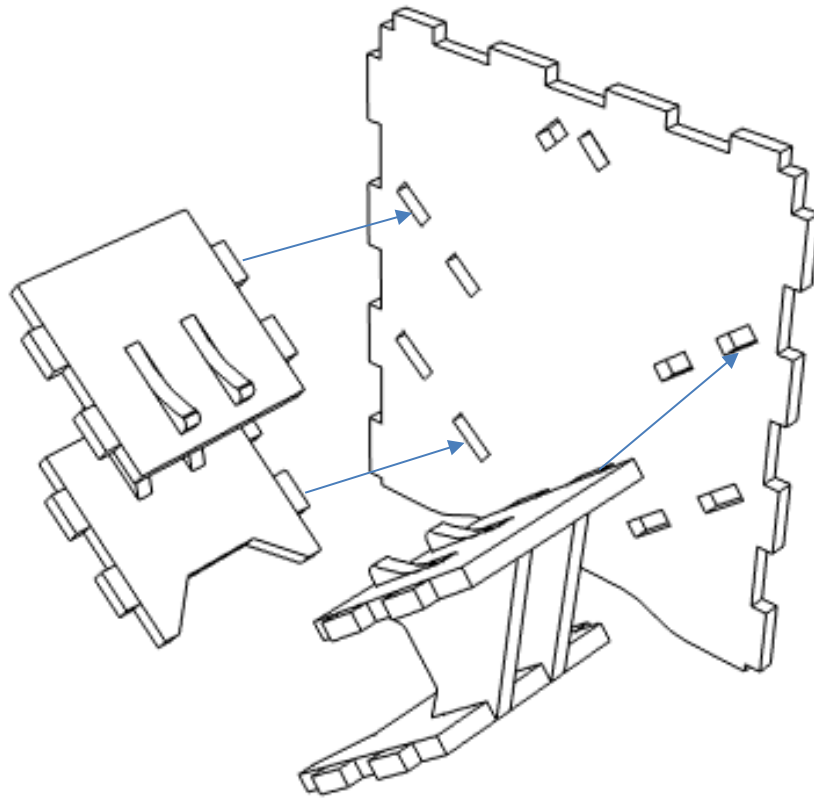

Step 10 (Velvet & Dice Tower pieces):

Attach the Velvet Upper Floor Deflector piece to the Dice Tower Upper Floor Deflector piece, making note it is facing the correct way as shown.

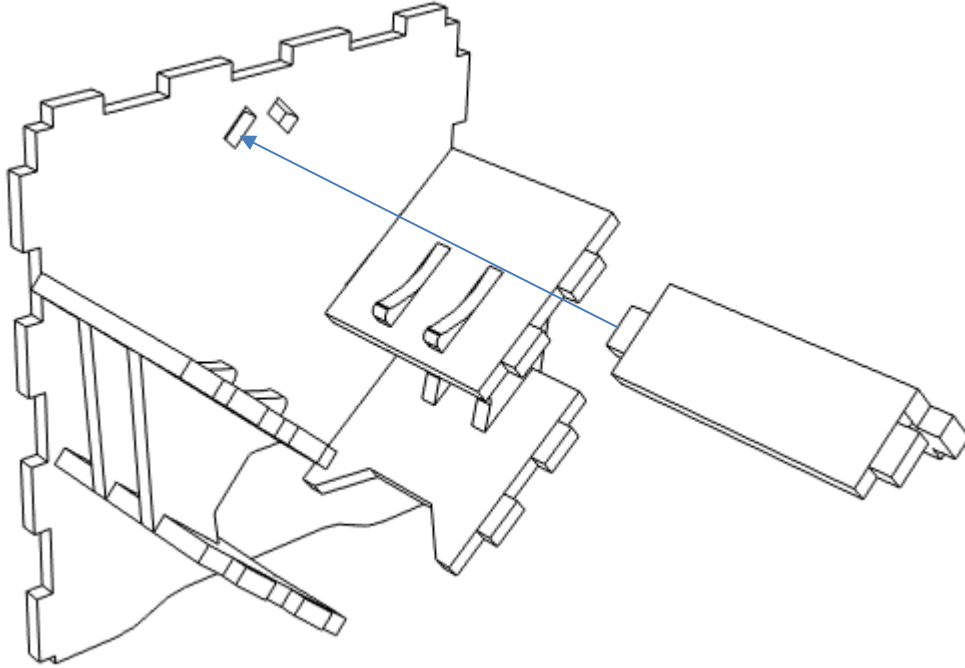

Step 11 (Dice Tower pieces):

Attach the Side Deflector pieces assembled in Steps 2 and 3 to the Back Wall piece, making note they are facing the correct way as shown.

Step 12 (Dice Tower pieces):

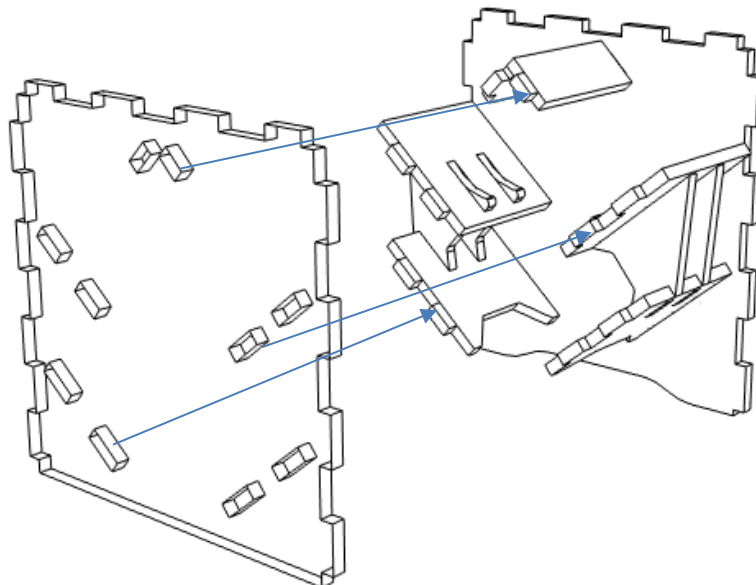

Attach the Top Deflector piece assembled in Step 4 to the Back Wall piece as shown.

Note for Acrylic - the side with the brown paper covering is the front of the Dice Tower. The paper was left to help indicate what side should be facing the front (away from the back wall), and should be removed before assembly.

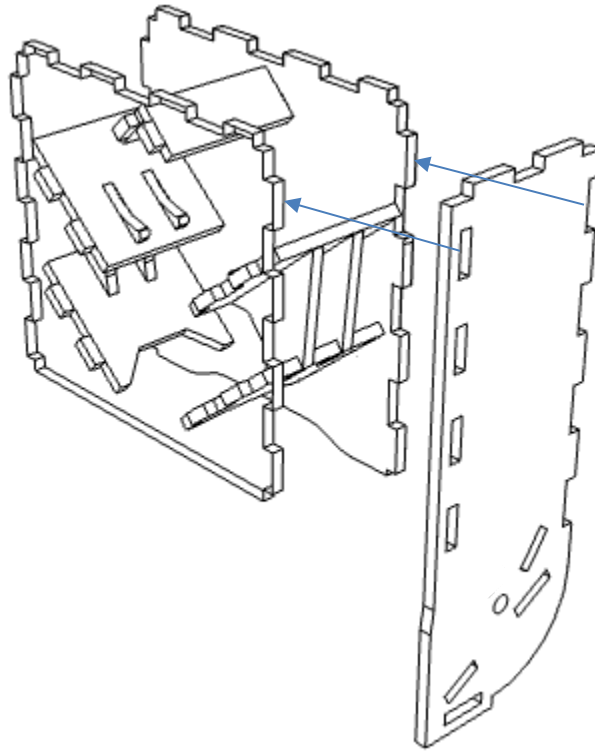

Step 13 (Dice Tower pieces):

Gently attach the Acrylic Front Wall piece to the Side Deflector and Top Deflector pieces, making note it is facing the correct way as shown. As the acrylic material is stronger than the plywood, we recommend slowly attaching the Acrylic Front Wall piece, and applying pressure where the wood comes through the acrylic when attaching.

Step 14 (Dice Tower pieces):

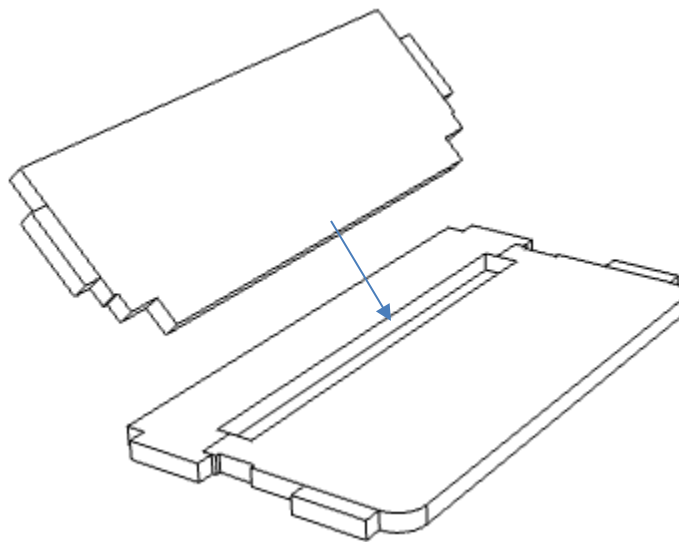

Attach one of the Side Wall pieces to the Back Wall and Acrylic Front Wall pieces, making note it is facing the correct way as shown.

Step 15 (Dice Tower pieces):

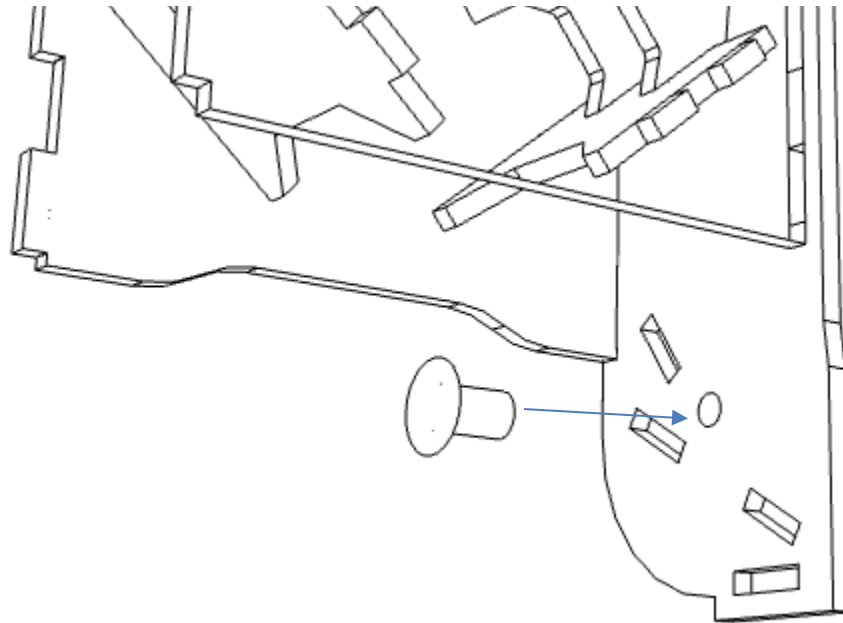

Slide the Upper Floor Deflector piece to the Lower Floor Deflector piece, making note it is facing the correct way as shown.

If you are using wood glue for assembly, DO NOT use glue in this Step to allow pieces to be flexible during Step 16.

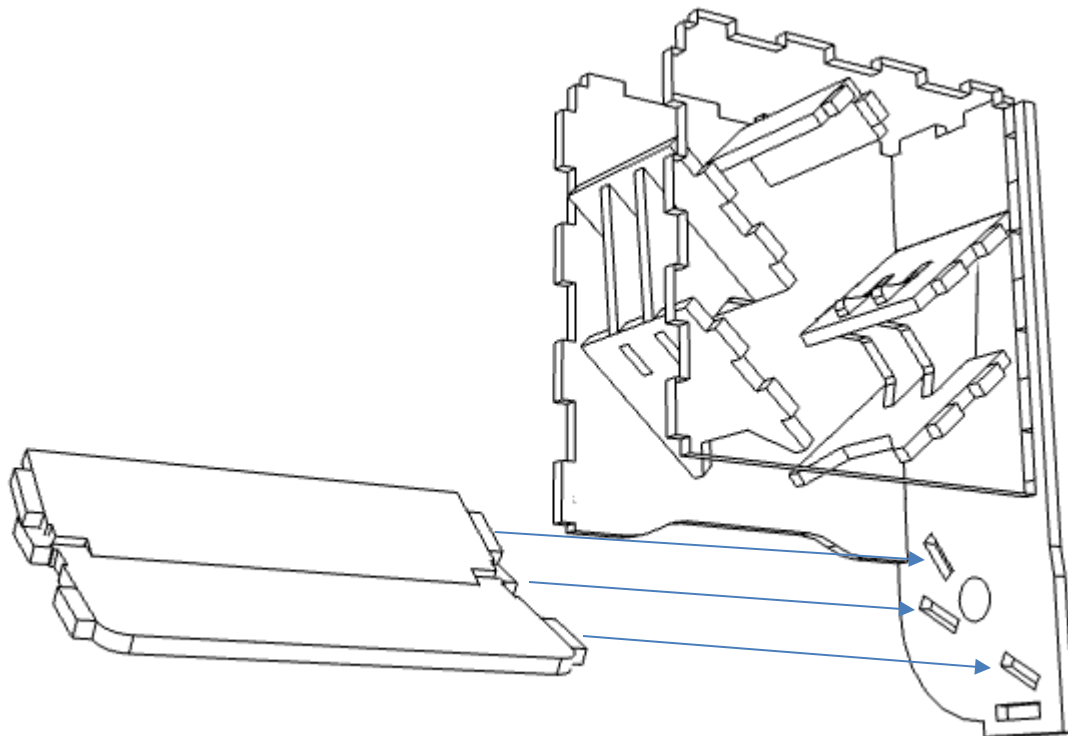

Step 16 (Dice Tower pieces):

Slide one of the Pin pieces into the Side Wall piece, making note it is facing the correct way as shown.

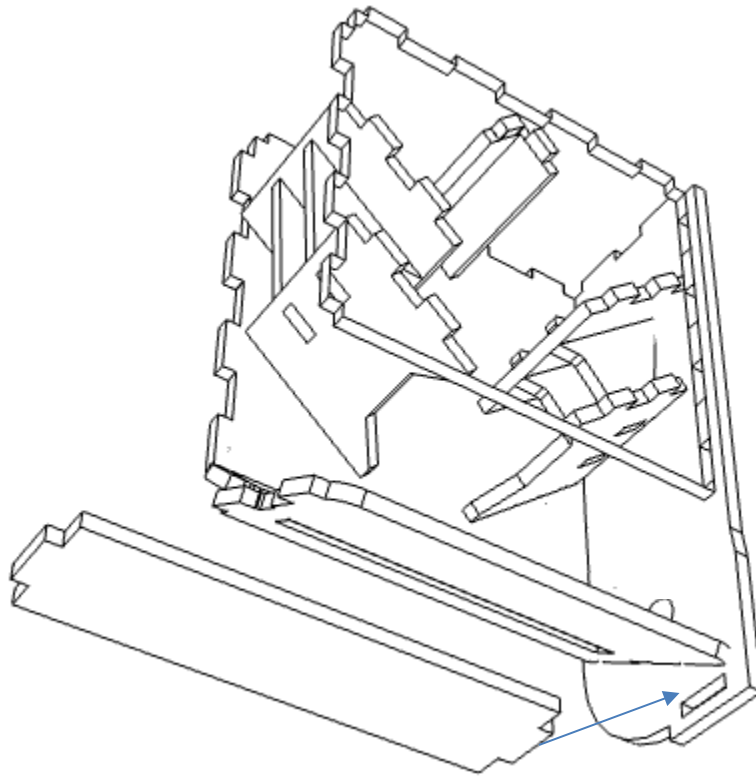

Step 17 (Dice Tower pieces):

Attach the Upper Floor Deflector and Lower Floor Deflector pieces to the Side Wall piece, making note it is facing the correct way as shown.

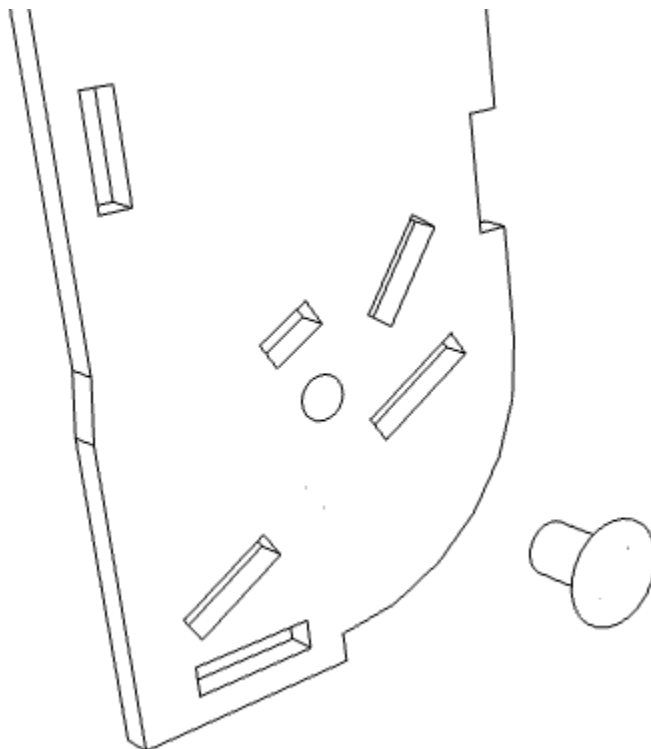

Step 18 (Dice Tower pieces):

Note - Before completing Step 17, ensure the Dice Tower Floor Support piece is the smaller of two similar pieces (the other being the Tray Back Wall piece). Attach the Floor Support piece to the Side Wall piece as shown.

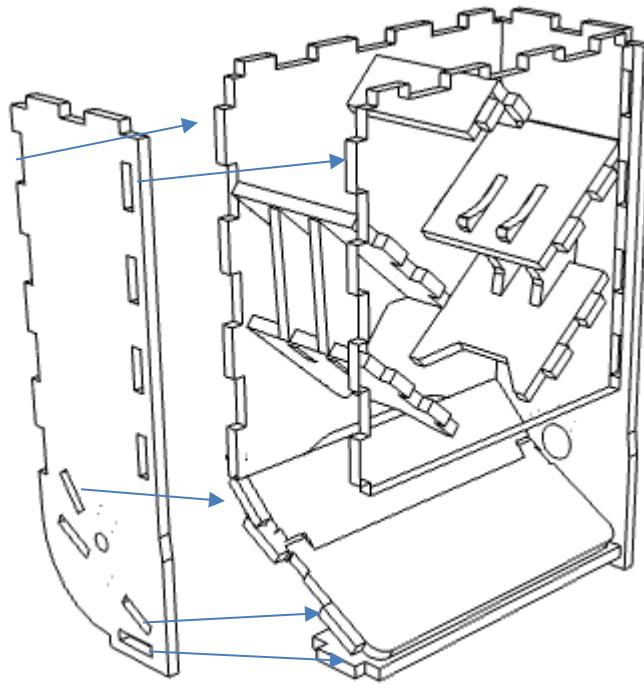

Step 19 (Dice Tower pieces):

Slide the remaining Pin piece into the remaining Side Wall piece, making note it is facing the correct way as shown.

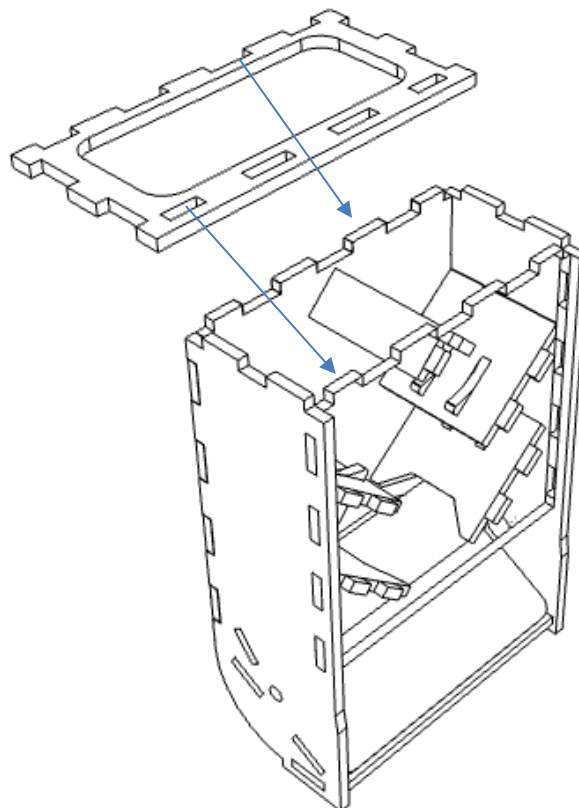

Step 20 (Dice Tower pieces):

Attach the Side Wall piece to the Back Wall, Floor Deflector, Floor Support and Acrylic Front Wall pieces, making note it is facing the correct way as shown.

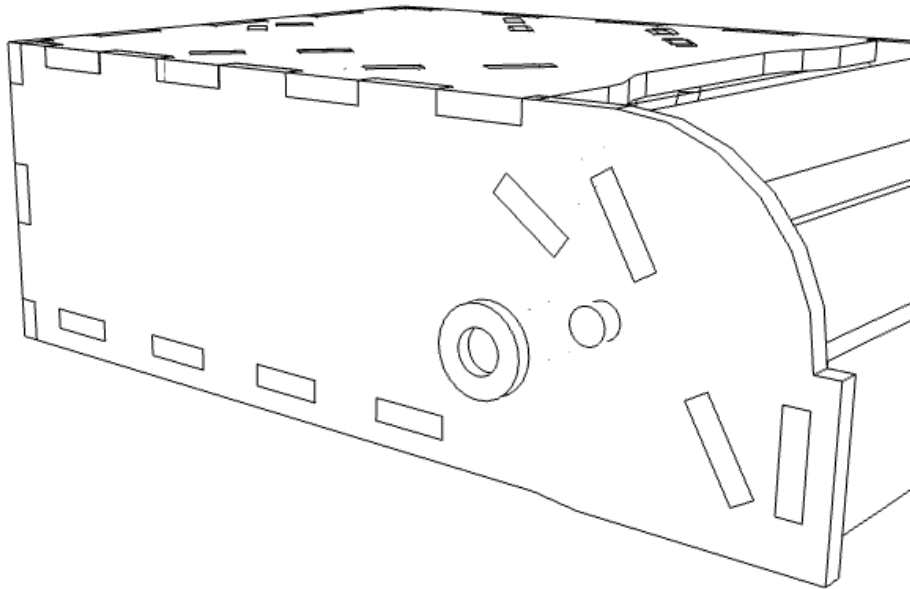

Step 22 (Dice Tower pieces):

Attach the Top piece to the Acrylic Front Wall, Back Wall and Side Wall pieces, making note it is facing the correct way as shown.

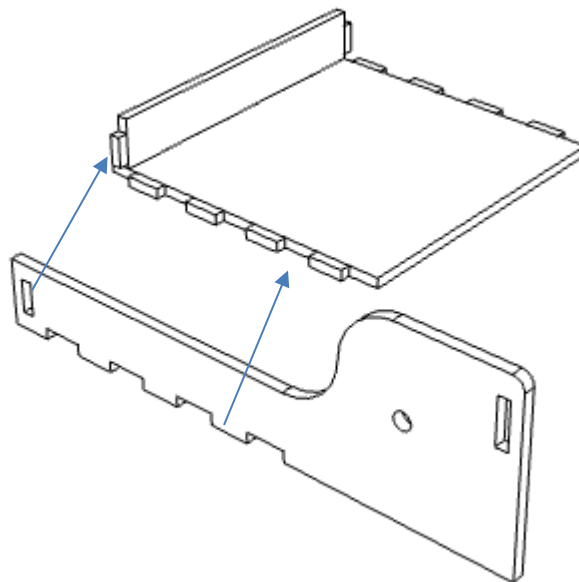

Step 23 (Dice Tower pieces):

Install one of the Nylon Washer pieces onto the Pin piece that is sticking out of the Side Wall piece as shown. Repeat Step on other side of Dice Tower.

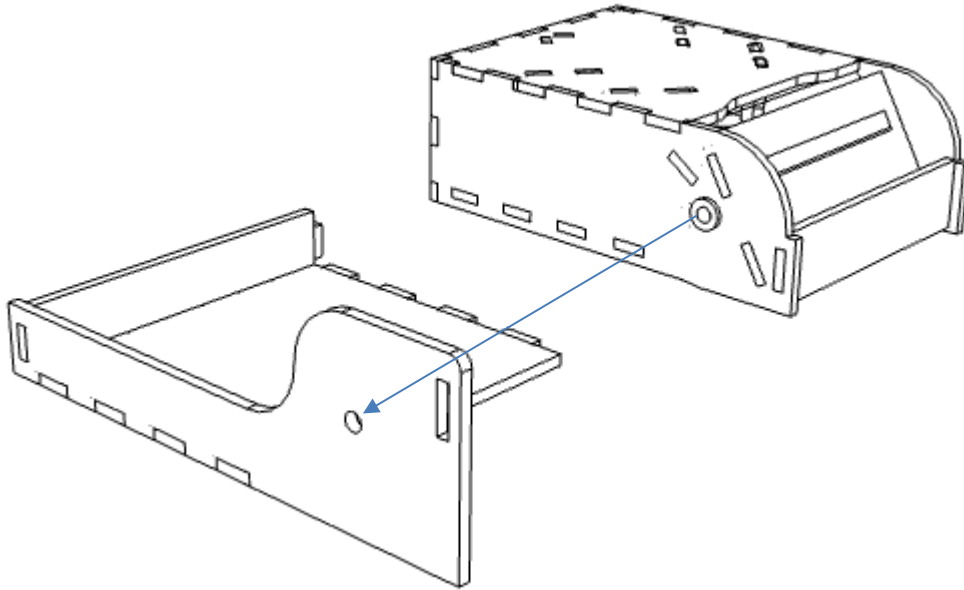

Step 24 (Tray pieces):

Attach one of the Side Wall pieces to the Floor piece, making note it is facing the correct way as shown.

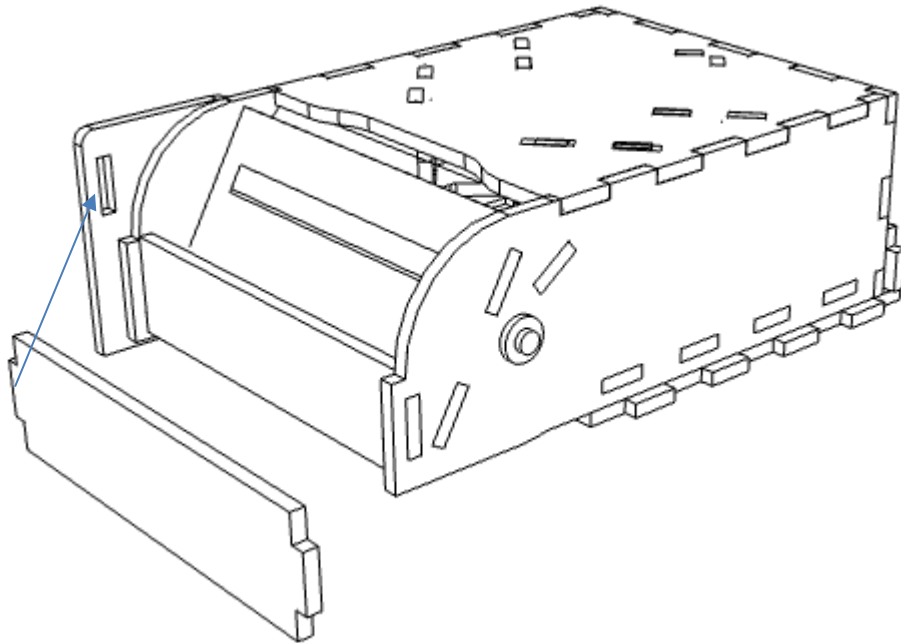

Step 25 (Tray & Dice Tower pieces):

Slide the Dice Tower into the Tray Side Wall piece so the Dice Tower Pivot Circle piece is inside to the circle cutout of the Tray Side Wall, making note it is facing the correct way as shown. **If you are using wood glue for assembly DO NOT use glue in this Step.**

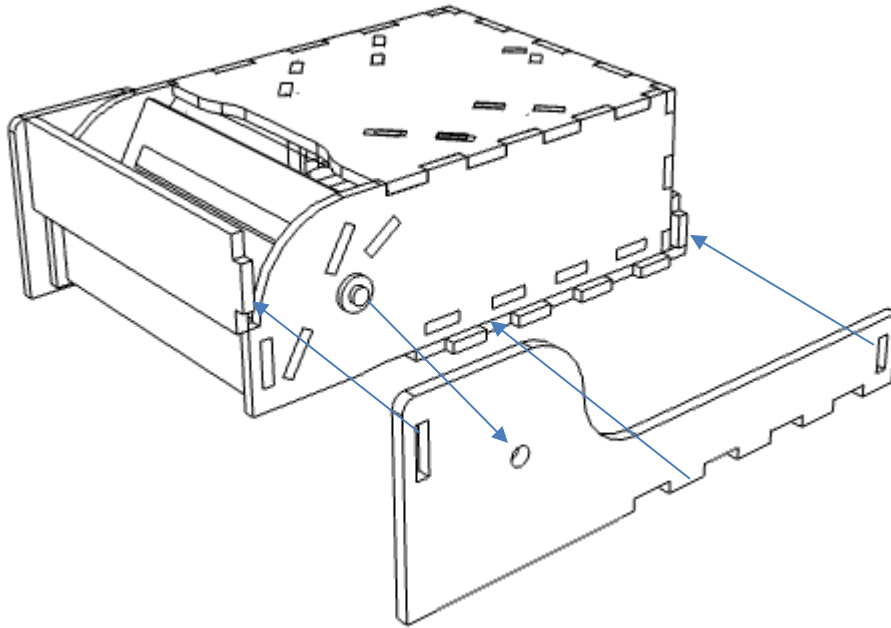

Step 26 (Tray pieces):

Attach the Back Wall piece to the Side Wall piece as shown.

Step 27 (Tray & Dice Tower pieces):

Attach the remaining Side Wall piece to the Tray Floor, Tray Back Wall and Dice Tower Pivot Circle pieces, making note it is facing the correct way as shown. **If you are using wood glue for assembly DO NOT use glue on the Pivot Circle piece as this piece needs to move in order to open and close the dice tower.**
